

Power & Electrical Engineering

Organizer:

Dates:

15-17 November 2016

IEC«Yekaterinburg Expo»

Energy efficiency 16-th specialized exhibition.

Dear Ladies and Gentlemen!

Exhibition society «Ural Exhibitions» would like to invite you to participate in the 15th specialized international exhibition «Power & Electrical engineering, Energy efficiency» that will be held in Yekaterinburg from 08-10 November 2016.

The aim of the exhibition: to elaborate an effective trade, economic and industrial business relations between the enterprises of electric power complex, industrial companies, Ural scientific research and project organizations with the attraction of business partners from Russian Federation, CIS and other countries of the world.

Main directions of the exhibition:

- Equipment for production, reformation, storage and transfer of all types of power;
- Automated systems and accounting meters, control members, energy supply regulation units (heating, electrical energy and gas);
- Equipment for cogeneration of heating and power;
- Electric generator;
- High-voltage and low-voltage switching and defensive systems and equipment;
- Semi conducting transformative equipment;
- Automated control systems of power-generating equipment;
- Controllers, microprocessors, elements of microelectronics and automation
- Energy saving boilers and heat-exchanging apparatus;
- Cabling and wiring products;
- Electrical equipment;
- Electric insulating materials and products;
- Electric drives and energy saving plants;
- Nanotechnology;
- Means of electrical safety;
- Software;
- Research and development of a projects and devises.
- filament bulbs and energy save spots, industrial lamps and lamps for office. Street lanterns.
- Atomized illuminating devices and appliances management etc.

About the project: “Power and electrical technology” – is one of the largest exhibition projects in Ural region. The participant will get the opportunity to present their advantages in the sector of electrical engineering and find out the ways of practical problems solutions on the bases of energy save technologies adoption, innovative materials and up to date equipment adoption in power engineering sector.

Exhibition schedule: Conferences, seminars, round tables, interactive presentations on participants stall. competitions for gold. Silver, bronze medals, diplomas of CJSC “Ural Exhibitions”

Participants’ registration: one should fill in the application for participation and send it the Organizer’s address by e-mail or fax. The invoice will be submitted on account of the application. The payment is made by preliminary bank money transfer to the Organizer’s account or by cash. 100 % prior payment before the exhibition opening. The information about the company to be published in catalogue must be transferred 2 weeks prior the exhibition opening. Otherwise the information will be published in catalogue’s supplement.

Exhibition schedule:

Participants arrival	14 November	10.00 to 7 p.m.
Working days	15-17 November	10.00 to 6. p.m.
Official exhibition opening	15 November	at 1 p.m.
Ceremony of medals and diplomas award	17 November	at 3 p.m.
Disassembling	17 November	at 5 p.m.

Russia, 620027, Yekaterinburg, Sverdlov str., 11a, office 505, Litvinova Anna
