

# WELDING. MONITORING AND TESTING METALWORKING

- более 7000 посетителей, 40% которых являются руководителями или главными специалистами предприятий
- поддержка профильных союзов и ассоциаций
- насыщенная деловая программа
- более 200 участников

**22 - 24 NOVEMBER 2016**

**The biggest specialized project in Ural region on amount of presented equipment, exhibition build up area, and amount of well-known trademarks and brands , project with international participants**

**Organizer:** Ural exhibitions – the leader in Ural Federal District for arrangement of exhibitions

**Official support:** Coordination council of the Ministry of the industry and science of Sverdlovsk region on welding production, diagnostics and related technologies; the Ural Chamber Trade and Commerce; the Ural federal university; the Institute of Physics of Metals (UroRan) Russian Academy of Science.

**Уральский  
федеральный  
университет**  
имени первого Президента  
России Б.Н.Ельцина

## Core exhibition sectors:

**Welding:** Laser welding, surfacing and cutting technologies and equipment, metallic-arc welding; equipment for wire and arc welding electrode manufacture, equipment and technologies for welding of plastic, welding fillers; wire welding; auxiliary welding equipment, measuring devices; stud welding; uniform, protective clothing, manual metal arc welding; means and methods of protection from harmful industrial influence in welding sector, tools and appliances for welding & machining, welding in building industry, plasma welding and cutting;

**Monitoring and testing:** nondestructive control, technical diagnostics, control and measurements transmitters and sensors, sensing device, industrial automation, testing, no-touch measurements

**Metalworking:** metal-cutting machine tools and tools; tool-grinding and grinding machine tools; the abrasive tool; the foundry equipment; the equipment for processing metals by pressure; the equipment for heat treatment and drawings of coverings; hydraulic systems and equipment; the hoisting-and-transport equipment and the warehouse equipment; pneumatic systems and equipment; the compressor equipment; engines techniques; bearings; scientific and technical projects, technological and design development, production management; investment projects; the scientific and technical literature and information; the welding equipment; systems of automatic designing, modeling; cooling liquids and systems; measuring techniques, devices for measurement and the control.

We invite everyone to participate in the exhibition "Welding. Monitoring and testing. Metalworking". In case of your interest could you please to apply to the project manager Litvinova Anna , [la@uv66.ru](mailto:la@uv66.ru), +7(343)378-19-05 .

**Venue: Yekaterinburg, IEC «Yekaterinburg-EXPO»  
Boulevard Expo, 2.**
