# Ob-Irtysh basin

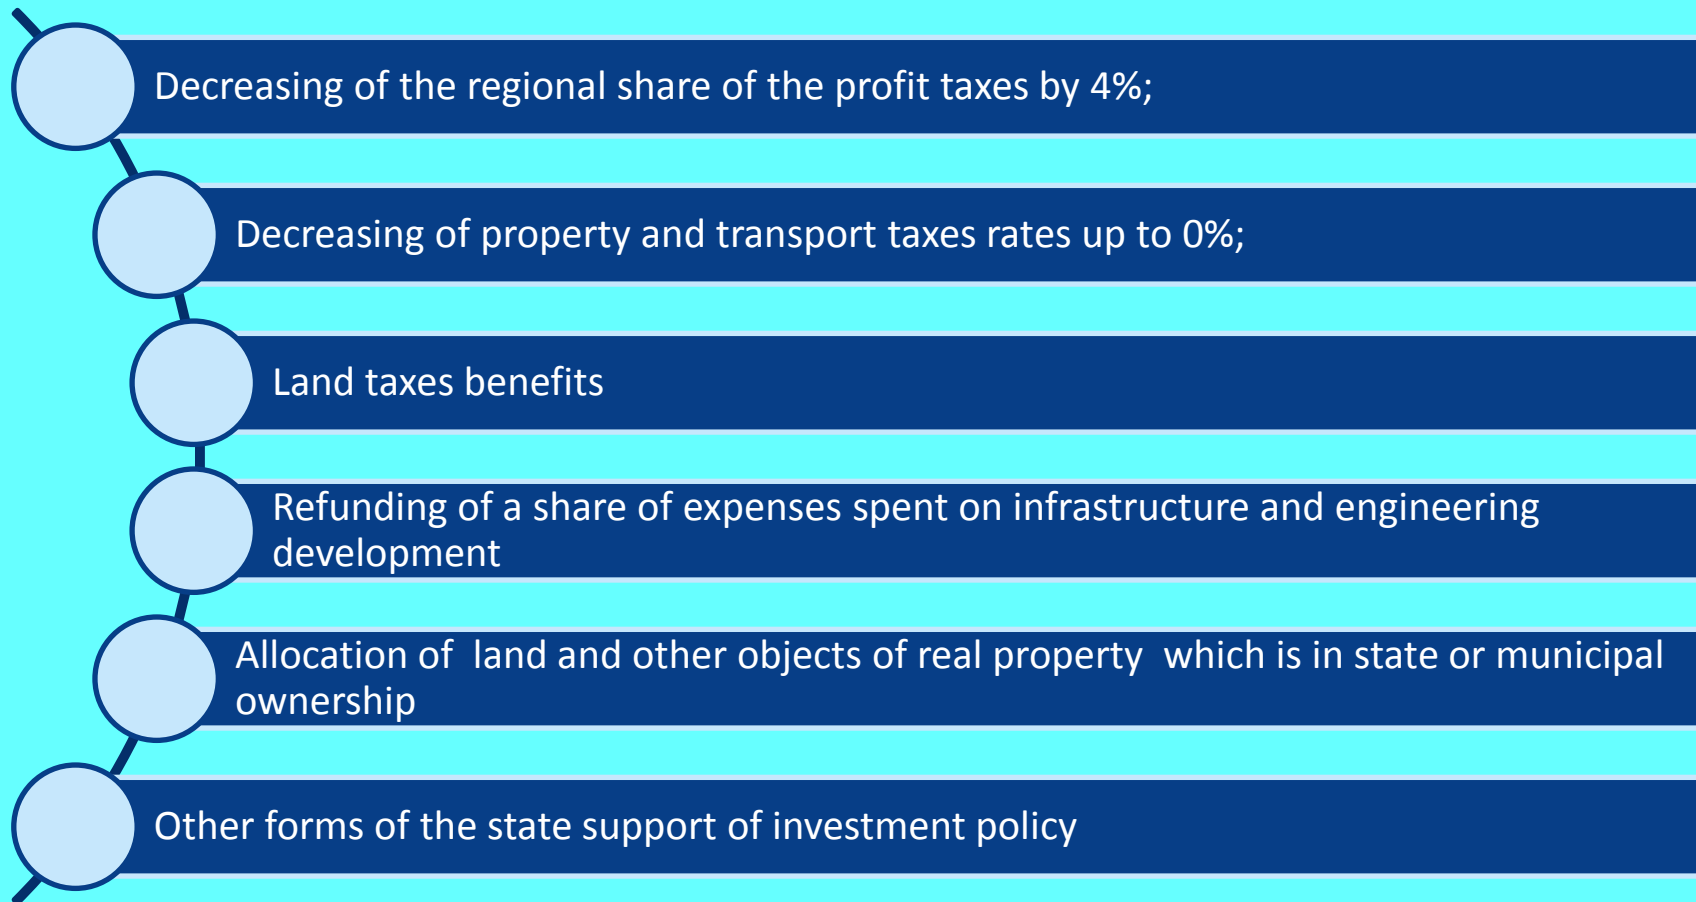

Gas  
production

Oil  
production

## Forms of the state support of investors in the Tyumen region

## Advantages of the investment project in the Tyumen region

**Tyumen region has all necessary geographical and resource potential for active further development of the shipbuilding industry. There is Ob-Irtysh River basin in the region - the largest in the country. This basin has direct access to Yamal gas fields, as well as transit outlets to Kazakhstan, China and Europe (via North Sea Route).**

## Prerequisites for realization the project in the Tyumen Region

Implementation of major investment projects of Yamal-Nenets Autonomous Okrug:

- construction of a liquefied gas plant;
- construction of seaport Sabetta;
- Bovanenkovskoye oilfield development and Yamal Peninsula waters development;

(total investment are more than \$ 2 trillion RUB)

These projects will entail a significant need for creation of “river-sea” vessels for oil and gas industry and transportation of passengers.
